## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

Claims 1-6 and 8-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gentry in view of Cuervo.

Gentry discloses in figures 1-10 a massage device comprising a power supply 53, an electrical motor 89, an eccentric weight 90, fixed to a shaft 92, a slide switch 66, a wire coil 84 and a slide brush 68, a cylindrical housing (fig. 1), having a vibrator compartment 95, accomodating the electrical motor and the eccentric weight (fig. 6), a battery compartment 34, a cap 95 having a plurality of projections 104. However, Gentry does not disclose the slide switch including a wire coil. Cuervo teaches in figures 1-2 a massage device comprising a switch 56, having slide brushes 57 and a coil 42. It would have been obvious to one having ordinary skill in the art at the time that the invention was made that the wire coil as taught by Cuervo could be incorporated into the switch as disclosed by Gentry in order to use the coil in order to use the switch and the coil to provide adjustments to the speed of the motor operation.

### ***Allowable Subject Matter***

Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

Art Unit: 3764
